## NARRATIVE

On 05/29/2014 at about 1554 hours (all times approximate) I responded to a single vehicle collision in the 800 block of Lundeen Parkway in the city of Lake Stevens.

Arriving on scene I contacted the driver (uninjured) and three witnesses. It should be noted I could not communicate well with the driver of U1 due to a language barrier.

I was only able to obtain a Washington State driver's license from the driver of U1, ascertain that he was traveling about 35-40mph, that he did not recall the collision occurring and a phone number for his son (who came to the scene of the collision).

Based on evidence and statements collected at the scene, it is found that the driver of U1 (Apetenok DOB 1943) had been operating his vehicle southbound in about the 800 block of Lundeen Parkway, following the flow of traffic around the posted speed limit of 35mph, and failed to negotiate the left hand curve in the roadway. U1 struck the southbound curb, jumped onto and over the curb into the planter strip, striking and removing 2 small diameter trees and beginning a sideways slide (front of vehicle pointing eastbound). The passenger side of U1 then struck a third small diameter tree causing U1 to rotate clockwise, in the street, to a point where the front of U1 was now facing westbound. U1 then left the roadway again, jumping curb, traveling over a sidewalk and striking the dirt bank. The driver of U1 continued to accelerate for a period of time (in reverse trying to leave), until witnesses stopped and removed the keys from the vehicle. Witnesses claimed the driver of U1 attempted to restart his vehicle and attempt to drive away. Witnesses had to physically remove the keys from the vehicle so the driver of U1 would stop his attempt to leave. The vehicle sustained heavy damage as a result of the collision and was not able to drive from the scene.

I contacted the male driver of U1 and was unable to communicate well with him due to a language barrier.

District 8 fire/aid personnel arrived on scene and assessed the driver of U1. The driver of U1 denied further medical attention and claimed no injury as a result of the collision. Fire/aid personnel claimed to have called an off duty employee (Artem Teterin) to assist in communicating with the driver.

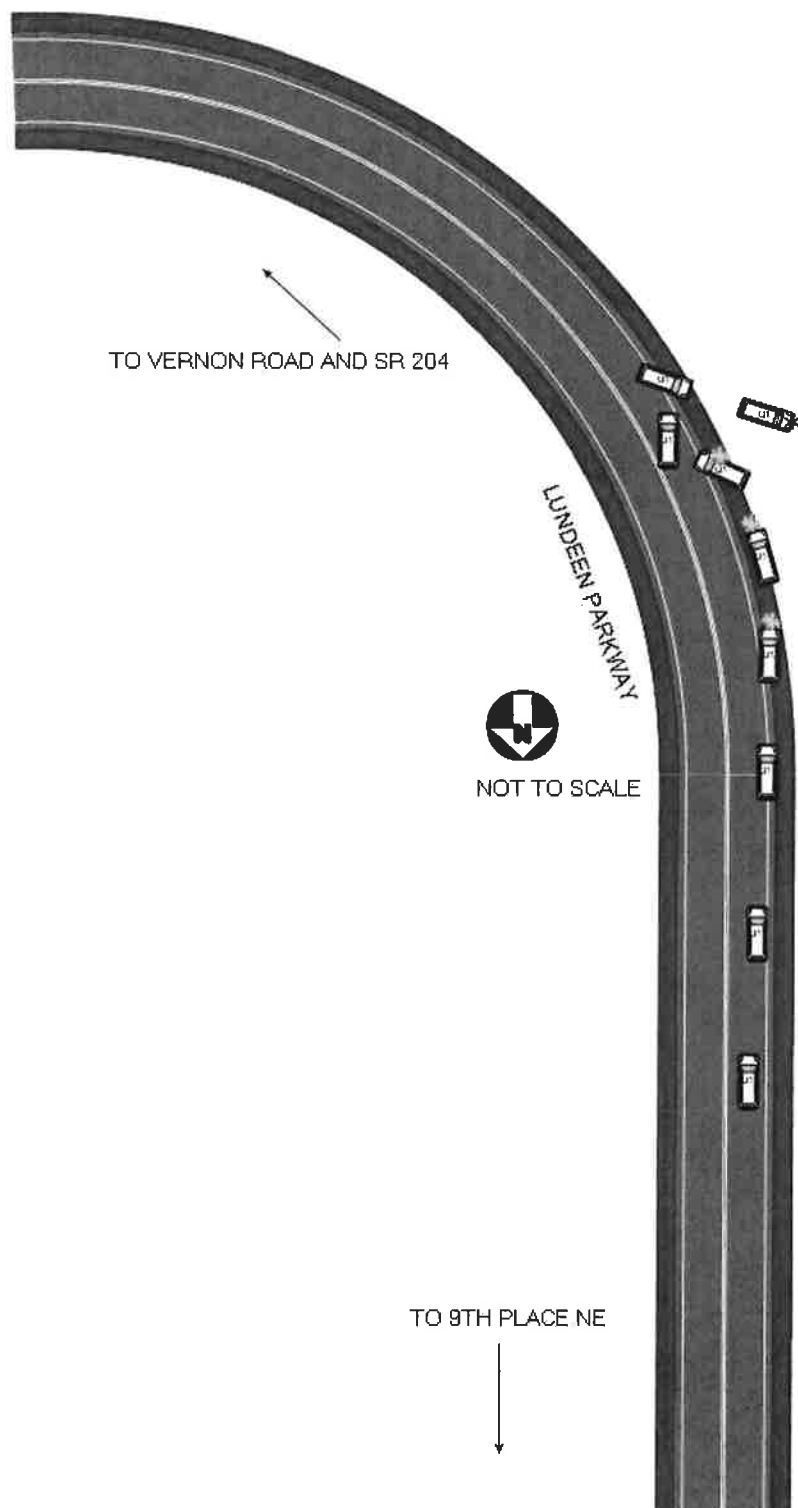

We were able to obtain a phone number to the driver's son, who came to the scene and assisted in communicating with the driver.

The son of the driver informed me that his father (driver of U1) had recently changed medications for his heart and that his father is going to be getting his pace maker replaced. The son spoke with his father and informed me that his father did not recall the collision and that his father was also claiming someone had forced him off the roadway. When the driver of U1 was shown the path of his vehicle and the debris field/damage caused by his vehicle, the driver of U1 appeared to deny having done anything other than drive his vehicle into the dirt bank.

Based on evidence and statements at the scene it appears the driver of U1 had lost consciousness just before the left hand curve in the roadway resulting in his vehicle leaving the roadway and causing property damage. U1 appears to be a total loss as a result of the collision. The driver of U1 claimed no injury as a result of the collision and refused further medical assistance at the scene.

The vehicle was towed from the scene by Sky Valley Towing. The driver of U1 left the scene with his son.

On 05/31 I called the driver of U1 and tried to find out his insurance company information. Again due to the language barrier I was unable to communicate well with him. When I did ask about insurance, the driver replied "insurance? no no".

I was traveling north on Lundeen Parkway in the S curves when I observed a white van traveling South on Lundeen Parkway when the Van lost control hit two trees and spun out. I approached the van and the driver was full throttle trying to back up. ite had 4 flat tires and very obvious the van was not going any where. I called 911 and spoke to aid as well. Another witness turned off the van and got the driver out. The driver did not speak english when we tried to speak to him. I had also yelled at the driver several attempts to turn off his vehicle. I did not smell alcohol on the driver. It appeared to me that the driver failed to turn in the S curves then swung out towards oncoming traffic then abruptly turned right over the curb into the Ditch.

On 05/29/14 at about 4pm I witnessed a white van drifting off the road. It looked like the van sped up as it hit the curb, at that time or shortly thereafter I heard the pop of a tire, the van continued to lose control but I saw little of that since it was behind me at that point. It appeared to me that the driver suffered some kind of medical issue but I can't be sure. All I can say there was no reason to move towards the curb.
